## **DIPLOMA COURSES IN TERTIARY INSTITUTIONS**

You should note that admissions will flow from University courses to the courses offered by other tertiary institutions. You will only be considered for what you have applied for, so candidates should endeavour to make appropriately choice. Attention is particularly drawn to the following:

1. The minimum entry requirement for all Diploma courses is 2 principal passes for Arts courses and 1P, 2ss for Science courses.
2. The subject requirement and weights for courses offered at Tertiary Institutions 2010/2011 are in table 1-v. Study the tables before applying to any of the Tertiary Institutions. It has been noticed that some for instance, candidates apply to National Teachers Colleges (NTs) which do not offer the course/subject combinations the candidates may choose. Kyambogo University (KYU) is a case in mind. Note that KYU offers only French, Home Economics and Technical Education for Diploma in Secondary Education. For Engineering programmes all Ordinary Diplomas were phased out, with exception of Ordinary Diploma in Science Technology Physics (STP), Chemistry (STC) and Biology (STB) and ordinary Diploma in Refrigeration and Air Conditioning (DRA).
3. Use the 4 figure codes (course and college codes) given in table one to apply for courses and colleges of your choice. First two figures are for course and next two figures are for college offering the course.
4. Please note that there will be no change of colleges after admissions have been done. If you cannot go to a particular college for one reason or another then do not apply to it. If you apply to it and get admitted then fail to take-up the place, you will have blocked a place for somebody else. But note also that your insistence on particular colleges may lead to not being admitted.
5. ITEK and UPK were merged to form Kyambogo University and some diploma courses were phased out for Government programmes. Please note the changes accordingly.
6. Uganda Colleges of Commerce (UCCs) offer UDBS as a course with the various option:- ( i) Marketing ( ii) Accounting (iii) Stores Management (iv) Purchasing and Supplies Management

**Note: Students should note that once a student has been admitted on Government or Private Sponsorship in Universities, he/she is automatically cancelled from being considered for Diploma programmes in Tertiary Institutions. Therefore, one should not apply for private sponsored courses in Universities if he/she wishes to be considered for government funding for diploma in tertiary institutions.**
