**Section 1. Instructions to Bidders****A General****1. Scope of Bid**

- 1.1 The Procuring and Disposing Entity indicated in the Bid Data Sheet (BDS), invites bids for the provision of Supplies or Services as specified in Section 6, Statement of Requirements. Bids are invited for an estimated quantity of Supplies or Services as specified in Section 6, Statement of Requirements, under a framework contract arrangement. The Instructions to Bidders should be read in conjunction with the BDS. The subject and procurement reference number, and number of lots of this Bidding Document are provided in the BDS.
- 1.2 Throughout these Bidding Documents:
- (a) the term “in writing” means communicated in written form with proof of receipt;
  - (b) if the context so requires, singular means plural and vice versa; and
  - (c) “day” means working day.

**2. Source of Funds**

- 2.1 The Procuring and Disposing Entity indicated in the BDS has an approved budget from Government funds towards the cost of the procurement named in the BDS. The Procuring and Disposing Entity intends to use these funds to place a contract for which these Bidding Documents are issued.
- 2.2 Payments will be made directly by the Procuring and Disposing Entity for each call-off order and will be subject in all respects to the terms and conditions of the resulting contract placed by the Procuring and Disposing Entity.

**3. Corrupt Practices**

- 3.1 It is the Government of Uganda’s policy to require that Procuring and Disposing Entities, as well as Bidders and Providers observe the highest standards of ethics during procurement and the execution of contracts. In pursuit of this policy, the Government of Uganda represented by the Public Procurement and Disposal of Public Assets Authority (herein referred to as the Authority);
- (a) defines, for the purposes of this provision, the terms set forth below as follows:
    - (i) “corrupt practice” includes the offering, giving, receiving, or soliciting of anything of value to influence the action of a public official in the procurement process or in contract execution; and

- (ii) “fraudulent practice” includes a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of the Procuring and Disposing Entity, and includes collusive practices among Bidders prior to or after bid submission designed to establish bid prices at artificial, non competitive levels and to deprive the Procuring and Disposing Entity of the benefits of free and open competition;
  - (b) will reject a recommendation for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the Contract;
  - (c) will suspend a Provider from engaging in any public procurement proceeding for a stated period of time, if it at any time determines that the Provider has engaged in corrupt or fraudulent practices in competing for, or in executing, a Government contract.
- 3.2 Furthermore, Bidders shall be aware of the provision stated in Sub-Clause 3.2 and Sub-Clause 35.1 (a)(iii) of the General Conditions of Contract.
- 3.3 In pursuit of the policy defined in Sub-Clause 3.1, the Procuring and Disposing Entity may terminate a contract for Supplies or Services if it at any time determines that corrupt or fraudulent practices were engaged in by representatives of the Procuring and Disposing Entity or of a Bidder or Provider during the procurement or the execution of that contract, without the Procuring and Disposing Entity having taken timely and appropriate action satisfactory to the Government to remedy the situation.
- 3.4 In pursuit of the policy defined in Sub-clause 3.1, the Government of Uganda requires representatives of both the Procuring and Disposing Entities and of Bidders and Providers to adhere to the relevant codes of ethical conduct. The Code of Ethical Conduct for Bidders and Providers is available from the Authority and Bidders are required to indicate their acceptance of this Code through the declarations in the Bid Submission Sheet.
- 3.5 Any communications between a Bidder and the Procuring and Disposing Entity related to matters of alleged fraud or corruption must be made in writing and addressed to the Accounting Officer of the Procuring and Disposing Entity.

#### **4. Eligible Bidders**

- 4.1 A Bidder, and all parties constituting the Bidder, shall meet the following criteria to be eligible to participate in public procurement:
  - (a) the bidder has the legal capacity to enter into a contract;
  - (b) the bidder is not:

- (i) insolvent;
    - (ii) in receivership;
    - (iii) bankrupt; or
    - (iv) being wound up
  - (c) the bidder's business activities have not been suspended;
  - (d) the bidder is not the subject of legal proceedings for any of the circumstances in (b); and
  - (e) the bidder has fulfilled his or her obligations to pay taxes and social security contributions.
- 4.2 A Bidder may be a natural person, private entity, government-owned entity, subject to ITB Sub-Clause 4.6, any combination of them with a formal intent to enter into an agreement or under an existing agreement in the form of a joint venture, consortium, or association. In the case of a joint venture, consortium, or association, unless otherwise specified in the BDS, all parties shall be jointly and severally liable.
- 4.3 A Bidder, and all parties constituting the Bidder including sub-contractors, shall have the nationality of an eligible country, in accordance with Section 5, Eligible Countries. A Bidder shall be deemed to have the nationality of a country if the Bidder is a citizen or is constituted, incorporated, or registered and operates in conformity with the provisions of the laws of that country. This criterion shall also apply to the determination of the nationality of proposed subcontractors for any part of the Contract including related services.
- 4.4 A Bidder shall not have a conflict of interest. All Bidders found to be in conflict of interest shall be disqualified. A Bidder may be considered to have a conflict of interest with one or more parties in this bidding process, if they:
- (a) have controlling shareholders in common; or
  - (b) receive or have received any direct or indirect subsidy from any of them; or
  - (c) have the same legal representative for purposes of this bid; or
  - (d) have a relationship with each other, directly or through common third parties, that puts them in a position to have access to information about or influence on the bid of another Bidder, or influence the decisions of the Procuring and Disposing Entity regarding this bidding process; or
  - (e) submit more than one bid in this bidding process, except for alternative offers permitted under ITB Clause 13. However, this does not limit the participation of subcontractors in more than one bid, or as Bidders and subcontractors simultaneously; or

- (f) participated as a contractor or consultant in the preparation of the design or technical specifications of the Supplies or services that are the subject of the bid.
- 4.5 A firm that is under a declaration of suspension by the Authority in accordance with ITB Clause 3.1 (c), at the date of the deadline for bid submission or thereafter, shall be disqualified.
- 4.6 Government-owned enterprises shall be eligible only if they can establish that they are legally and financially autonomous and operate under commercial law.
- 4.7 Bidders shall provide such evidence of their continued eligibility satisfactory to the Procuring and Disposing Entity, as the Procuring and Disposing Entity shall reasonably request.

## **5. Eligible Supplies or Services**

- 5.1 All Supplies or Services to be supplied under the Contract shall have as their country of origin an eligible country in accordance with Section 5, Eligible Countries.
- 5.2 For purposes of this Clause, the term “Supplies” means goods, raw materials, products, equipment or objects of any kind and description in solid, liquid or gaseous form, or in the form of electricity, or intellectual and proprietary rights as well as services incidental to the provision of such supplies where the value of such services does not exceed the value of the supplies.
- 5.3 The term “country of origin” means the country where the Supplies have been mined, grown, cultivated, produced, manufactured, or processed, or through manufacture, processing, or assembly, another commercially recognised article results that differs substantially in its basic characteristics from its imported components.
- 5.4 The nationality of the Provider that produces, assembles, distributes, or sells the Supplies shall not determine their origin.
- 5.5 If so required in the BDS, the Bidder shall demonstrate that it has been duly authorised by the Manufacturer of the Supplies to supply, in the Republic of Uganda, the Supplies indicated in its bid.

## **B. Bidding Document**

### **6. Contents of Bidding Document**

- 6.1 The Bidding Document consists of Parts 1, 2, and 3, which include all the Sections indicated below, and should be read in conjunction with any addenda issued in accordance with ITB Clause 8.

**PART 1 Bidding Procedures**

- Section 1. Instructions to Bidders (ITB)
- Section 2. Bid Data Sheet (BDS)
- Section 3. Evaluation Methodology and Criteria
- Section 4. Bidding Forms
- Section 5. Eligible Countries

**PART 2 Statement of Requirements**

- Section 6. Statement of Requirements

**PART 3 Contract**

- Section 7. General Conditions of Contract (GCC) for the Procurement of Supplies or Services
- Section 8. Special Conditions of Contract (SCC)
- Section 9. Contract Forms

- 6.2 The Bid Notice or any Pre-qualification Notice is not part of the Bidding Document.
- 6.3 Bidders who did not obtain the Bidding Document directly from the Procuring and Disposing Entity will be rejected during evaluation. Where a Bidding Document is obtained from the Procuring and Disposing Entity on a Bidder's behalf, the Bidder's name must be registered with the Procuring and Disposing Entity at the time of sale and issue.
- 6.4 The Bidder is expected to examine all instructions, forms, terms, and specifications in the Bidding Document. Failure to furnish all information or documentation required by the Bidding Document, may result in the rejection of the bid.

**7. Clarification of Bidding Document**

- 7.1 A prospective Bidder requiring any clarification of the Bidding Document shall contact the Procuring and Disposing Entity in writing at the Procuring and Disposing Entity's address indicated in the BDS. The Procuring and Disposing Entity will respond in writing to any request for clarification, provided that such request is received no later than the number of days prior to the deadline for submission of bids indicated in the BDS. The Procuring and Disposing Entity shall forward copies of its response to all Bidders who have acquired the Bidding Document directly from it, including a description of the inquiry but without identifying its source. Should the Procuring and Disposing Entity deem it necessary to amend the Bidding Document as a result of a clarification, it shall do so following the procedure under ITB Clause 8 and Sub-Clause 24.2.

**8. Amendment of Bidding Document**

- 8.1 At any time prior to the deadline for submission of bids, the Procuring and Disposing Entity may amend the Bidding Document by issuing an addendum. The addendum shall be issued in writing and shall be part of the Bidding Document. The addendum shall be issued in writing and shall be part of the Bidding Document. The addendum shall be issued in writing and shall be part of the Bidding Document.
- Standard Bidding Document for Framework Contracts for Supplies and Services Issued by PPDA**  
..... 2011.
-

Disposing Entity may amend the Bidding Document by issuing addenda.

- 8.2 Any addendum issued shall be part of the Bidding Document and shall be communicated in writing to all who have obtained the Bidding Document directly from the Procuring and Disposing Entity.
- 8.3 To give prospective Bidders reasonable time in which to take an addendum into account in preparing their bids, the Procuring and Disposing Entity may, at its discretion, extend the deadline for the submission of bids, pursuant to ITB Sub-Clause 24.2.

### **C. Preparation of Bids**

#### **9. Cost of Bidding**

- 9.1 The Bidder shall bear all costs associated with the preparation and submission of its bid, and the Procuring and Disposing Entity shall not be responsible or liable for those costs, regardless of the conduct or outcome of the bidding process.

#### **10. Language of Bid and Communications**

- 10.1 The medium of communication shall be in writing unless otherwise specified in the BDS.
- 10.2 The bid, as well as all correspondence and documents relating to the bid exchanged by the Bidder and the Procuring and Disposing Entity, shall be written in English unless otherwise specified in the BDS.
- 10.3 Supporting documents and printed literature that are part of the bid may be in another language provided they are accompanied by an accurate translation of the relevant passages in English, in which case, for purposes of interpretation of the bid, such translation shall govern.

#### **11. Documents Comprising the Bid**

- 11.1 The bid shall comprise the following:
- (a) the Bid Submission Sheet and the applicable Price Schedules, in accordance with ITB Clauses 12, 14, and 15;
  - (b) a Bid Security, in accordance with ITB Clause 21;
  - (c) written confirmation authorising the signatory of the bid to commit the Bidder, in accordance with ITB Clause 22;
  - (d) documentary evidence in accordance with ITB Clause 16 establishing the Bidder's eligibility to bid;
  - (e) documentary evidence in accordance with ITB Clause 17 establishing that the Supplies or Services to be supplied by the Bidder are of eligible origin;

- (f) documentary evidence in accordance with ITB Clauses 18 and 30, that the Supplies or Services conform to the Bidding Documents;
- (g) documentary evidence in accordance with ITB Clause 19 establishing the Bidder's qualifications to perform the contract if its bid is accepted; and
- (h) any other document(s) required in the BDS.

**12. Bid Submission Sheet and Price Schedules**

12.1 The Bidder shall submit the Bid Submission Sheet using the form provided in Section 4, Bidding Forms. This form must be completed without any alterations to its format, and no substitutes shall be accepted. All blank spaces shall be filled in with the information requested, which includes:

- (a) the reference of the Bidding Document and the number of each addenda received;
- (b) a brief description of the Supplies or Services offered;
- (c) the total bid price, based on the estimated quantities specified in Section 6, Statement of Requirements;
- (d) any discounts offered and the methodology for their application;
- (e) the period of validity of the bid ;
- (f) a commitment to submit any Performance Security required and the amount;
- (g) a declaration of nationality of the Bidder;
- (h) a commitment to adhere to the Code of Ethical Conduct for Bidders and Providers;
- (i) a declaration that the Bidder, including all parties comprising the Bidder, is not participating, as a Bidder, in more than one bid in this bidding process; except for alternative bids in accordance with ITB Clause 13;
- (j) confirmation that the Bidder has not been suspended by the Authority;
- (k) a declaration on gratuities and commissions; and
- (l) an authorised signature.

12.2 The Bidder shall submit the Price Schedule for Supplies or Services, using the format provided in Section 4, Bidding Forms. The Price Schedule shall include, as appropriate:

- (a) the item number;
- (b) a brief description of the Supplies or Services to be supplied;
- (c) their country of origin and percentage of Ugandan content;

- (d) the quantity, which shall be the estimated quantity specified in Section 6, Statement of Requirements;
- (e) the unit prices;
- (f) customs duties and all taxes paid or payable in Uganda;
- (g) the total price per item;
- (h) subtotals and totals per Price Schedule; and
- (i) an authorised signature.

**13. Alternative Bids**

- 13.1 Alternative bids shall not be considered unless otherwise indicated in the BDS.
- 13.2 Where permitted, alternative bids do not need to conform precisely to the Statement of Requirements, but must -
- (a) meet the objectives and/or performance requirements prescribed in the Statement of Requirements;
  - (b) be substantially within any delivery or completion schedule, budget or other performance parameters stated in the solicitation document; and
  - (c) clearly state the benefits of the alternative bid over any solution which conforms precisely to the Statement of Requirements, in terms of technical performance, price, operating costs or any other benefit.
- 13.3 A bidder may submit both a main bid which conforms precisely to the Statement of Requirements and an alternative bid.
- 13.4 Where a bidder submits more than one bid, each bid shall be submitted as a completely separate bid and shall conform to the instructions for preparation and submission of bids in its own right, without any reliance on any other bid. In particular, each bid shall be separately signed, authorised, sealed, labelled and submitted in accordance with the instructions for submission of bids and shall be accompanied by a separate Bid Security, if so required. Such bids shall be labelled “Main Bid” and “Alternative Bid”.
- 13.5 The evaluation of alternative bids shall use the same methodology, criteria and weights as the evaluation of main bids, except that the detailed technical evaluation shall take into account only the objectives and/or performance requirements prescribed in the Statement of Requirements.

**14. Bid Prices and Discounts**

- 14.1 The prices and discounts quoted by the Bidder in the Bid Submission Sheet and in the Price Schedules shall conform to the requirements specified below.
- 14.2 All items in the Schedule of Supply must be listed and priced separately in the Price Schedules. Items not listed in the Price Schedule shall be assumed to be not included in the bid, and provided that the bid is substantially responsive, the

corresponding adjustment shall be applied in accordance with ITB Sub-Clause 31.3.

- 14.3 The price to be quoted in the Bid Submission Sheet, in accordance with ITB Sub-Clause 12.1(c), shall be the total price of the bid, based on the estimated quantities specified, excluding any discounts offered.
- 14.4 The Bidder shall quote any unconditional and conditional discounts and the methodology for their application in the Bid Submission Sheet, in accordance with ITB Sub-Clause 12.1(d) and ITB Sub-Clause 14.8 respectively.
- 14.5 The terms EXW, CIF, CIP, and other similar terms shall be governed by the rules prescribed in the edition of Incoterms, published by The International Chamber of Commerce, as specified in the BDS.
- 14.6 Prices quoted on the Price Schedule for Supplies or Services, shall be disaggregated, when appropriate as indicated in this sub-clause. This disaggregation shall be solely for the purpose of facilitating the comparison of bids by the Procuring and Disposing Entity. This shall not in any way limit the Procuring and Disposing Entity's right to contract on any of the terms offered:
- (a) for Supplies;
    - (i) the price of the Supplies, quoted CIP or other Incoterm as specified in the BDS;
    - (ii) all custom duties, sales tax, and other taxes applicable in Uganda, paid or payable, on the Supplies or on the components and raw materials used in their manufacture or assembly, if the Contract is awarded to the Bidder; and
    - (iii) the total price for the item.
  - (b) for Services;
    - (i) the price of the Services;
    - (ii) all custom duties, sales tax, and other taxes applicable in Uganda, paid or payable, on the Services, if the Contract is awarded to the Bidder; and
    - (iii) the total price for the item.
- 14.7 Prices quoted by the Bidder shall be fixed during the Bidder's performance of the Contract and not subject to variation on any account, unless otherwise specified in the BDS. A bid submitted with an adjustable price quotation shall be treated as non responsive and shall be rejected, pursuant to ITB Clause 30. However, if in accordance with the BDS, prices quoted by the Bidder shall be subject to adjustment during the performance of the Contract, a bid submitted with a fixed price quotation shall not be rejected, but the price adjustment shall be treated as zero.
- 14.8 If so indicated in ITB Sub-Clause 1.1, bids are being invited for individual contracts

(lots) or for any combination of contracts (packages). Bidders wishing to offer any price reduction for the award of more than one Contract shall specify in their bid the price reductions applicable to each package, or alternatively, to individual Contracts within the package. Price reductions or discounts shall be submitted in accordance with ITB Sub-Clause 14.4, provided the bids for all lots are submitted and opened at the same time.

**15. Currencies of Bid**

15.1 Bid prices shall be quoted in the following currencies:

- (a) for Supplies or Services originating in Uganda, the bid prices shall be quoted in the currency of Uganda, unless otherwise specified in the BDS; and
- (b) for Supplies or Services originating outside Uganda, or for imported parts or components of Supplies or Services originating outside Uganda, the bid prices shall be quoted in the currency of the expense or in the currency of the Bidder's country unless otherwise specified in the BDS.

15.2 Alternatively, the Procuring and Disposing Entity may request that prices quoted be expressed in the currency specified in the BDS. If the Bidder wishes to be paid in a currency or a combination of currencies different from the one in which it was requested to express its quotation, it shall as part of its offer:

- (a) indicate its requirement to be paid in other currencies, including the amount in each currency or the percentage of the quoted price corresponding to each currency;
- (b) justify, to the Procuring and Disposing Entity's satisfaction, the requirement to be paid in the currencies requested; and
- (c) utilise the rate of exchange specified by the Procuring and Disposing Entity to express its offer in the currency required by the Procuring and Disposing Entity. The source, date, and type of exchange rate to be used is indicated in the BDS, in accordance with ITB Clause 34, and shall not precede the bid submission deadline by less than twenty (20) days.

**16. Documents Establishing the Eligibility of the Bidder**

16.1 To establish their eligibility in accordance with ITB Clause 4, Bidders shall complete the eligibility declarations in the Bid Submission Sheet, included in Section 4, Bidding Forms and submit the documents required in Section 3 Evaluation Methodology and Criteria.

**17. Documents Establishing the Eligibility of Supplies or Services**

17.1 To establish the eligibility of the Supplies or Services, in accordance with ITB Clause 5, Bidders shall complete the country of origin declarations in the Price

Schedule included in Section 4, Bidding Forms.

**18. Documents Establishing the Conformity of the Supplies or Services**

- 18.1 To establish the conformity of the Supplies or Services to the Bidding Documents, the Bidder shall provide as part of its bid the documentary evidence specified in Section 6, Statement of Requirements.
- 18.2 The documentary evidence may be in the form of literature, drawings or data, and shall consist of a detailed description of the essential technical and performance characteristics of the Supplies or Services, demonstrating substantial responsiveness of the Supplies or Services to those requirements, and if applicable, a statement of deviations and exceptions to the provisions of the Statement of Requirements.
- 18.3 Standards for workmanship, process, material, and equipment, as well as references to brand names or catalogue numbers specified by the Procuring and Disposing Entity in the Statement of Requirement, are intended to be descriptive only and not restrictive. The Bidder may offer other standards of quality, brand names, and/or catalogue numbers, provided that it demonstrates, to the Procuring and Disposing Entity's satisfaction, that the substitutions ensure substantial equivalence or are superior to those specified in the Statement of Requirement.

**19. Documents Establishing the Qualifications of the Bidder**

- 19.1 To establish its qualifications to perform the Contract, the Bidder shall submit the evidence indicated for each qualification criteria specified in Section 3, Evaluation Methodology and Criteria.

**20. Period of Validity of Bids**

- 20.1 Bids shall remain valid for the period specified in the BDS after the date of the bid submission deadline prescribed by the Procuring and Disposing Entity. A bid valid for a shorter period shall be rejected by the Procuring and Disposing Entity as non-compliant.
- 20.2 In exceptional circumstances, prior to the expiration of the bid validity period, the Procuring and Disposing Entity may request Bidders to extend the period of validity of their bids. The request and the responses shall be made in writing. If a Bid Security is requested in accordance with ITB Clause 21, it shall also be extended for a corresponding period. A Bidder may refuse the request without forfeiting its Bid Security. A Bidder granting the request shall not be required or permitted to modify its bid.

**21. Bid Security**

- 21.1 Unless otherwise specified in the BDS, the Bidder shall furnish as part of its bid, a Bid Security in original form and in the amount and currency specified in the BDS.

21.2 The Bid Security shall be, at the Bidder's option, in any of the following forms:

- (a) a demand guarantee;
- (b) an irrevocable letter of credit;
- (c) a cashier's or certified check; or
- (d) another security indicated in the BDS,

from a reputable source from an eligible country. The Bid Security shall be submitted either using the Bid Security Form included in Section 4, Bidding Forms, or in another substantially similar format. In either case, the form must include the complete name of the Bidder. The Bid Security shall be valid for twenty eight days beyond the end of the validity period of the bid. This shall also apply if the period for bid validity is extended.

21.3 Any bid not accompanied by a substantially responsive Bid Security, if one is required in accordance with ITB Sub-Clause 21.1 shall be rejected by the Procuring and Disposing Entity as non-compliant.

21.4 The Bid Security of all Bidders shall be returned as promptly as possible once the successful Bidder has signed the Contract and provided any required Performance Security.

21.5 The Bid Security may be forfeited:

- (a) if a Bidder withdraws its bid during the period of bid validity specified by the Bidder on the Bid Submission Sheet, except as provided in ITB Sub-Clause 20.2; or
- (b) if the successful Bidder fails to:
  - (i) sign the Contract in accordance with ITB Clause 43;
  - (ii) furnish any Performance Security in accordance with ITB Clause 44; or
  - (iii) accept the correction of its bid price pursuant to ITB Sub-Clause 31.5.

## **22. Format and Signing of Bid**

22.1 The Bidder shall prepare one original of the documents comprising the bid as described in ITB Clause 11 and clearly mark it "ORIGINAL." In addition, the Bidder shall submit copies of the bid, in the number specified in the BDS and clearly mark each of them "COPY." In the event of any discrepancy between the original and the copies, the original shall prevail.

22.2 The original and all copies of the bid shall be typed or written in indelible ink and shall be signed by a person duly authorised to sign on behalf of the Bidder. This authorisation shall consist of a written confirmation as specified in the BDS and shall be attached to the bid. The name and position held by each person signing the

authorisation must be typed or printed below the signature. All pages of the bid, except for unamended printed literature, shall be signed or initialled by the person signing the bid.

- 22.3 Any interlineations, erasures, or overwriting shall be valid only if they are signed or initialled by the person signing the bid.

## **D Submission and Opening of Bids**

### **23 Sealing and Marking of Bids**

- 23.1 The Bidder shall enclose the original and each copy of the bid, in separate sealed envelopes, duly marking the envelopes as “ORIGINAL” and “COPY.” These envelopes containing the original and the copies shall then be enclosed in one single plain envelope securely sealed in such a manner that opening and resealing cannot be achieved undetected.
- 23.2 The inner and outer envelopes shall:
- (a) bear the name and address of the Bidder;
  - (b) be addressed to the Procuring and Disposing Entity in accordance with ITB Sub-Clause 24.1;
  - (c) bear the Procurement Reference number of this bidding process; and
  - (d) bear a warning not to open before the time and date for bid opening, in accordance with ITB Sub-Clause 27.1.
- 23.3 If all envelopes are not sealed and marked as required, the Procuring and Disposing Entity will assume no responsibility for the misplacement or premature opening of the bid.

### **24 Deadline for Submission of Bids**

- 24.1 Bids must be received by the Procuring and Disposing Entity at the address and no later than the date and time indicated in the BDS.
- 24.2 The Procuring and Disposing Entity may, at its discretion, extend the deadline for the submission of bids by amending the Bidding Documents in accordance with ITB Clause 8, in which case all rights and obligations of the Procuring and Disposing Entity and Bidders previously subject to the deadline shall thereafter be subject to the deadline as extended.

### **25 Late Bids**

- 25.1 The Procuring and Disposing Entity shall not consider any bid that arrives after the deadline for submission of bids, in accordance with ITB Clause 24. Any bid received by the Procuring and Disposing Entity after the deadline for submission of

bids shall be declared late, rejected, and returned unopened to the Bidder.

**26. Withdrawal and Replacement of Bids**

- 26.1 A Bidder may withdraw or replace its bid after it has been submitted at any time before the deadline for submission of bids by sending a written notice, duly signed by an authorised representative, which shall include a copy of the authorisation in accordance with ITB Sub-Clause 22.2. Any corresponding replacement of the bid must accompany the respective written notice. All notices must be:
- (a) submitted in accordance with ITB Clauses 22 and 23 (except that withdrawals notices do not require copies), and in addition, the respective envelopes shall be clearly marked “WITHDRAWAL,” or “REPLACEMENT,” and
  - (b) received by the Procuring and Disposing Entity prior to the deadline prescribed for submission of bids, in accordance with ITB Clause 24.
- 26.2 Bids requested to be withdrawn in accordance with ITB Sub-Clause 26.1 shall be returned unopened to the Bidder.
- 26.3 No bid may be withdrawn or replaced in the interval between the deadline for submission of bids and the expiration of the period of bid validity specified by the Bidder on the Bid Submission Sheet or any extension thereof.
- 26.4 Bids may only be modified by withdrawal of the original bid and submission of a replacement bid in accordance with ITB Sub-Clause 26.1. Modifications submitted in any other way shall not be taken into account in the evaluation of bids.

**27. Bid Opening**

- 27.1 The Procuring and Disposing Entity shall conduct the bid opening in the presence of Bidders` designated representatives who choose to attend, at the address, date and time specified in the BDS.
- 27.2 First, envelopes marked “WITHDRAWAL” shall be opened and read out and the envelope with the corresponding bid shall not be opened, but returned to the Bidder. No bid withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorisation to request the withdrawal and is read out at the bid opening.
- All other envelopes including those marked “REPLACEMENT” shall be opened and the relevant details read out. Replacement bids shall be recorded as such on the record of the bid opening.
- Only envelopes that are opened and read out at the bid opening shall be considered further.
- 27.3 All other envelopes shall be opened one at a time, reading out: the name of the Bidder; the bid price, per lot where applicable, including any discounts; the

presence of a Bid Security, if required; and any other details that the Procuring and Disposing Entity may consider appropriate. Only discounts and alternative offers read out at the bid opening shall be considered for evaluation. No bid shall be rejected at the bid opening except for late bids, in accordance with ITB Sub-Clause 25.1.

- 27.4 The Procuring and Disposing Entity shall prepare a record of the bid opening that shall include, as a minimum: the name of the Bidder and whether there is a withdrawal and/or replacement; the bid price, per lot if applicable, including any discounts; and the presence or absence of a Bid Security, if one was required. The Bidders' representatives who are present shall be requested to sign the record. The omission of a Bidder's signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to Bidders upon payment of a fee and displayed on the Procuring and Disposing Entity's Notice Board within one working day from the date of the bid opening.

#### **E. Evaluation of Bids**

#### **28. Confidentiality**

- 28.1 Information relating to the examination, evaluation, comparison, and post-qualification of bids, and recommendation of contract award, shall not be disclosed to bidders or any other persons not officially concerned with such process until information detailing the Best Evaluated Bidder is communicated to all Bidders.
- 28.2 Any effort by a Bidder to influence the Procuring and Disposing Entity in the examination, evaluation, comparison, and post-qualification of the bids or contract award decisions may result in the rejection of its bid.
- 28.3 Notwithstanding ITB Sub-Clause 28.2, from the time of bid opening to the time of Contract award, if any Bidder wishes to contact the Procuring and Disposing Entity on any matter related to the bidding process, it should do so in writing.

#### **29. Clarification of Bids**

- 29.1 To assist in the examination, evaluation, comparison and post-qualification of the bids, the Procuring and Disposing Entity may, at its discretion, ask any Bidder for a clarification of its bid. Any clarification submitted by a Bidder that is not in response to a request by the Procuring and Disposing Entity shall not be considered. The Procuring and Disposing Entity's request for clarification and the response shall be in writing. No change in the prices or substance of the bid shall be sought, offered, or permitted, except to confirm the correction of arithmetic errors discovered by the Procuring and Disposing Entity in the evaluation of the bids, in accordance with ITB Clause 31.4.

#### **30. Compliance and Responsiveness of Bids**

- 30.1 The Procuring and Disposing Entity's determination of a bid's compliance and responsiveness is to be based on the contents of the bid itself.
- 30.2 A substantially compliant and responsive bid is one that conforms to all the terms, conditions, and specifications of the Bidding Documents without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that:
- (a) affects in any substantial way the scope, quality, or performance of the Supplies or Services specified in the Contract; or
  - (b) limits in any substantial way, inconsistent with the Bidding Document, the Procuring and Disposing Entity's rights or the Bidder's obligations under the Contract; or
  - (c) if rectified would unfairly affect the competitive position of other Bidders presenting substantially compliant and responsive bids.
- 30.3 If a bid is not substantially compliant and responsive to the Bidding Document, it shall be rejected by the Procuring and Disposing Entity and may not subsequently be made compliant and responsive by the Bidder by correction of the material deviation, reservation, or omission.

**31. Nonconformities, Errors, and Omissions**

- 31.1 Provided that a bid is substantially compliant and responsive, the Procuring and Disposing Entity may waive any non-conformity or omissions in the bid that does not constitute a material deviation.
- 31.2 Provided that a bid is substantially compliant and responsive, the Procuring and Disposing Entity may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the bid related to documentation requirements. Such omission shall not be related to any aspect of the price of the bid. Failure of the Bidder to comply with the request may result in the rejection of its bid.
- 31.3 Provided that a bid is substantially compliant and responsive, the Procuring and Disposing Entity shall rectify nonmaterial nonconformities or omissions. To this effect, the bid price shall be adjusted, for comparison purposes only, to reflect the price of the missing or non-conforming item or component. The cost of any missing items will be added to the bid price using the highest price from other Bids submitted.
- 31.4 Provided that the bid is substantially compliant and responsive, the Procuring and Disposing Entity shall correct arithmetic errors on the following basis:
- (a) if there is a discrepancy between the unit price and the total price that is obtained by multiplying the unit price and quantity, the unit price shall prevail

and the total price shall be corrected, unless in the opinion of the Procuring and Disposing Entity there is an obvious misplacement of the decimal point in the unit price, in which case the total price as quoted shall govern and the unit price shall be corrected;

- (b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and
- (c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail subject to (a) and (b) above.

31.5 If the Bidder that submitted the best evaluated bid does not accept the correction of errors, its bid shall be rejected and its Bid Security may be forfeited.

### **32. Preliminary Examination of Bids – Eligibility and Administrative Compliance**

- 32.1 The Procuring and Disposing Entity shall examine the legal documentation and other information submitted by Bidders to verify the eligibility of Bidders and Supplies or services in accordance with ITB Clauses 4 and 5.
- 32.2 If after the examination of eligibility, the Procuring and Disposing Entity determines that the Bidder's Supplies or Services are not eligible, it shall reject the bid.
- 32.3 The Procuring and Disposing Entity shall examine the bids to confirm that all documents and technical documentation requested in ITB Clause 11 have been provided, and to determine the completeness of each document submitted.
- 32.4 The Procuring and Disposing Entity shall confirm that the following documents and information have been provided in the bid. If any of these documents or information is missing, the offer shall be rejected.
- (a) the Bid Submission Sheet, including:
    - (i) a brief description of the Supplies or Services offered;
    - (ii) the price of the bid; and
    - (iii) the period of validity of the bid;
  - (b) the Price Schedule;
  - (c) written confirmation of authorisation to commit the Bidder; and
  - (d) a Bid Security, if applicable.

### **33. Detailed Commercial and Technical Evaluation**

- 33.1 The Procuring and Disposing Entity shall examine the bid to confirm that all terms and conditions specified in the GCC and the SCC have been accepted by the Bidder without any material deviation or reservation.

- 33.2 If, after the examination of the terms and conditions, the Procuring and Disposing Entity determines that the bid is not substantially responsive in accordance with ITB Clause 30, it shall reject the bid.
- 33.3 The Procuring and Disposing Entity shall evaluate the technical aspects of the bid submitted in accordance with ITB Clause 18, to confirm that all requirements specified in Section 6, Statement of Requirements of the Bidding Document have been met without any material deviation or reservation.
- 33.4 If, after the technical evaluation, the Procuring and Disposing Entity determines that the bid is not substantially compliant in accordance with ITB Clause 30, it shall reject the bid.

**34 Conversion to Single Currency**

- 34.1 For evaluation and comparison purposes, the Procuring and Disposing Entity shall convert all bid prices expressed in amounts in various currencies into a single currency, using the selling exchange rate established by the source and on the date specified in the BDS.

**35. Margin of Preference**

- 35.1 Unless otherwise specified in the BDS, a margin of preference shall not apply. Where a Margin of Preference applies, its application and detail shall be specified in Section 3, Evaluation Methodology and Criteria.

**36. Financial Comparison of Bids**

- 36.1 The Procuring and Disposing Entity shall financially evaluate each bid that has been determined, up to this stage of the evaluation, to be substantially compliant and responsive.
- 36.2 To financially evaluate a bid, the Procuring and Disposing Entity shall only use the criteria and methodologies defined in this Clause and in Section 3, Evaluation Methodology and Criteria. No other criteria or methodology shall be permitted.
- 36.3 The Procuring and Disposing Entity's financial comparison of bids may require the consideration of factors other than costs, in addition to the bid price quoted in accordance with ITB Clause 14. These factors may be related to the characteristics, performance, and terms and conditions of purchase of the Supplies or Services. The factors selected, if any, shall be expressed in monetary terms to facilitate comparison of bids, unless otherwise specified in Section 3, Evaluation Methodology and Criteria. The factors to be used and the methodology of application shall be indicated of Section 3, Evaluation Methodology and Criteria.
- 36.4 To financially compare bids, the Procuring and Disposing Entity shall:
- (a) determine the bid price, taking into account the costs listed of Section 3,

Evaluation Methodology and Criteria;

- (b) correct any arithmetic errors in accordance with ITB Sub-Clause 31.4;
- (c) apply any unconditional discounts offered in accordance with ITB Sub-Clause 12.1(d);
- (d) make adjustments for any nonmaterial nonconformities and omissions in accordance with ITB Sub-Clause 31.3;
- (e) apply any non-cost factors in accordance with ITB Sub-Clause 36.3;
- (f) convert all bids to a single currency in accordance with ITB Clause 34;
- (g) apply any margin of preference in accordance with ITB Clause 35;
- (h) determine the total evaluated price of each bid.

### **37. Determination of Best Evaluated Bid(s)**

- 37.1 The Procuring and Disposing Entity shall compare all substantially compliant and responsive bids to determine the best evaluated bid or bids, in accordance with Section 3, Evaluation Methodology and Criteria.

### **38. Post-qualification of the Bidder**

- 38.1 The Procuring and Disposing Entity shall determine to its satisfaction whether the Bidder that is selected as having submitted the best evaluated bid is qualified to perform the Contract satisfactorily.
- 38.2 The determination shall be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB Clause 19, to clarifications in accordance with ITB Clause 29 and the qualification criteria indicated in Section 3, Evaluation Methodology and Criteria. Factors not included in Section 3 shall not be used in the evaluation of the Bidder's qualification.
- 38.3 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the bid, in which event the Procuring and Disposing Entity shall proceed to the next best evaluated bid to make a similar determination of that Bidder's capabilities to perform satisfactorily.
- 38.4 If pre-qualification has been conducted, no post-qualification will be conducted but pre-qualification information shall be verified.

### **39. Procuring and Disposing Entity's Right to Accept or Reject Any or All Bids**

- 39.1 The Procuring and Disposing Entity reserves the right to accept or reject any bid, and to annul the bidding process and reject all bids at any time prior to contract award, without thereby incurring any liability to Bidders.

**F. Award of Contract****40. Award Procedure**

- 40.1 The Procuring Entity shall issue a Notice of Best Evaluated Bidder, place such Notice on public display for a prescribed period and copy the Notice to all Bidders prior to proceeding with contract award.
- 40.2 The Procuring and Disposing Entity shall award the Contract to the Bidder whose offer has been determined to be the best evaluated bid, provided that the Bidder is determined to be qualified to perform the Contract satisfactorily.
- 40.3 The Contract shall be a Framework Contract and shall not purchase the quantities specified, with the exception of any contract value specified as a minimum. Supplies or Services shall be purchased through call-off orders, in accordance with the Contract.

**41. Procuring and Disposing Entity's Right to Vary Quantities at Time of Award**

- 41.1 At the time the Contract is awarded, the Procuring and Disposing Entity reserves the right to increase or decrease the estimated quantity or minimum value of Supplies or Services originally specified in Section 6, Statement of Requirements, provided this does not exceed the percentages indicated in the BDS, and without any change in the unit prices or other terms and conditions of the bid and the Bidding Document.

**42. Notification of Award and Letter of Bid Acceptance**

- 42.1 Prior to the expiration of the period of bid validity, the Procuring and Disposing Entity shall notify the successful Bidder, in writing, that its bid has been accepted by issue of a Letter of Bid Acceptance.
- 42.2 Until a formal contract is prepared and executed, the Letter of Bid Acceptance shall constitute a binding Contract.

**43. Signing of Contract**

- 43.1 Promptly after notification of contract award by the issue of a Letter of Bid Acceptance, the Procuring and Disposing Entity shall send the successful Bidder the Agreement and the Special Conditions of Contract.
- 43.2 Within twenty-eight (28) days of receipt of the Agreement, the successful Bidder shall sign, date, and return it to the Procuring and Disposing Entity.

**44. Performance Security**

- 44.1 Within twenty-eight (28) days of the receipt of the Letter of Bid Acceptance from the Procuring and Disposing Entity, the successful Bidder shall furnish any Performance Security required in accordance with the GCC, using for that purpose the Performance Security Form included in Section 9, Contract Forms, or another

form acceptable to the Procuring and Disposing Entity.

- 44.2 Failure of the successful Bidder to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the contract award and forfeiture of the Bid Security. In that event, the Procuring and Disposing Entity may award the Contract to the next best evaluated Bidder who is determined by the Procuring and Disposing Entity to be qualified to perform the Contract satisfactorily.

## Part 1: Section 2 Bid Data Sheet

### Section 2. Bid Data Sheet

| Instructions to Bidders Reference | Data relevant to the ITB                                                                                                                                                                                                                                                                                       |
|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>A. General</b>                 |                                                                                                                                                                                                                                                                                                                |

**Section 3. Evaluation Methodology and Criteria****Procurement Reference Number:****A Evaluation Methodology****1 Methodology Used**

- 1.1 The evaluation methodology to be used for the evaluation of bids received shall be according to the type of procurement namely; Technical Compliance Selection for Supplies and Non-Consultancy Services and Quality and Cost Based Selection for Consultancy Services.

**2 Summary of Methodology**

- 2.1 The Technical Compliance Selection methodology recommends the lowest priced bid, which is eligible, compliant and substantially responsive to the technical and commercial requirements of the Bidding Document, provided that the Bidder is determined to be qualified to perform the contract satisfactorily.
- 2.2 The Quality and Cost Based Selection methodology recommends the highest scoring bid, which is eligible and substantially responsive to the technical and commercial requirements of the Bidding Document, provided that the Bidder is determined to be qualified to perform the contract satisfactorily.
- 2.3 The evaluation shall be conducted in three sequential stages –
- (a) a preliminary examination to determine the eligibility of bidders and the administrative compliance of bids received;
  - (b) a detailed evaluation to determine the commercial and technical responsiveness of the eligible and compliant bids; and
  - (c) a financial comparison to compare costs of the eligible, compliant, responsive bids received and determine the best evaluated bid.
- 2.4 Failure of a bid at any stage of the evaluation shall prevent further consideration at the next stage of evaluation. Substantial responsiveness shall be considered a pass.

**B Preliminary Examination Criteria****3 Eligibility Criteria**

- 3.1 The eligibility requirements shall be determined for:-
- (a) Eligible Bidders in accordance with ITB Clause 4; and
  - (b) Eligible Supplies or Services in accordance with ITB Clause 5.
- 3.2 The documentation required to provide evidence of eligibility shall be:-
- (a) a copy of the Bidder's Trading licence or equivalent;
  - (b) a copy of the Bidder's Certificate of Registration or equivalent;
  - (c) a copy of the Bidder's income tax clearance certificate or equivalent;

**Standard Bidding Document for Framework Contracts for Supplies and Services Issued by PPDA  
..... 2011.**

---

- (d) a copy of the Bidders VAT registration or equivalent;
- (e) a statement in the Bid Submission Sheet that the bidder meets the eligibility criteria stated in ITB 4.1;
- (f) a declaration in the Bid Submission Sheet of nationality of the Bidder;
- (g) a completed Price Schedule. This should contain the declaration of the origin of the supplies for Supplies;
- (h) a statement in the Bid Submission Sheet that the Bidder has no conflict of interest;
- (i) a declaration in the Bid Submission Sheet that the Bidder is not under suspension by the Public Procurement and Disposal of Public Assets Authority;
- (j)

**4 Administrative Compliance Criteria**

- 4.1 The evaluation of Administrative Compliance shall be conducted in accordance with ITB Sub-Clauses 32.3 and 32.4.

**C Detailed Evaluation Criteria****5. Commercial Criteria**

- 5.1 The commercial responsiveness of bids shall be evaluated in accordance with ITB Clause 33. The criteria shall be:
- (a) acceptance of the conditions of the proposed contract;
  - (b) acceptable response time to call-off orders;
  - (c)

**6 Technical Criteria****D Financial Comparison Criteria****7. Costs to be included in Bid Price**

- 7.1 The financial comparison shall be conducted in accordance with ITB Clause 36. The costs to be included in the bid price bid are:
- (a) for supplies; the unit and total delivered price based on the delivery terms requested and the estimated quantity specified. The bid with the lowest evaluated price, from among those which are eligible, compliant and substantially responsive shall be the best evaluated bid.
  - (b) for services, fees; reimbursables and miscellaneous costs, for each activity. The bid achieving the highest combined technical and financial score shall be the Best Evaluated Bid.
  - (c) taxes, duties and levies;

**8 Non-cost Factors to be included in Evaluated Price**

- 8.1 The non-cost factors to be included in the evaluated price are:
- (a)

**9 Margin of Preference**

**10 Determination of Best Evaluated Bid or Bids**

- 10.1 (a) for supplies; the bid with the lowest evaluated price, from among those which are eligible, compliant and substantially responsive shall be the best evaluated bid.
- (b) for services, the bid achieving the highest combined technical and financial score shall be the Best Evaluated Bid.

- 10.2 Notwithstanding paragraph 10.1, if this Bidding Document allows Bidders to quote different prices for single lots and for the award to a single Bidder of multiple lots, the Procuring and Disposing Entity shall conduct a further financial comparison to apply any conditional discounts. The bid or bids offering the lowest priced combination of all the lots shall be the best evaluated bid or bids.

**E Post-qualification Criteria**

## Part 1: Section 5 Eligible Countries

---

### Section 5. Eligible Countries

**Procurement Reference Number:** MOES/Spls/2022-2023/.....

All countries are eligible except countries subject to the following provisions.

A country shall not be eligible if:

- (a) as a matter of law or official regulation, the Government of Uganda prohibits commercial relations with that country, provided that the Government of Uganda is satisfied that such exclusion does not preclude effective competition for the provision of supplies or services required; or
- (b) by an act of compliance with a decision of the United Nations Security Council taken under Chapter VII of the Charter of the United Nations, the Government of Uganda prohibits any import of Supplies or Services from that country or any payments to persons or entities in that country.

|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
|    | 9Bacterium Cell simulator is a 3-dimensional model packed in a 270x125x90mm box that visualizes the internal and external parts of a bacterium cell.                                                                                                                    |   |      |
| 9  | Microscopy Set<br>Microscopy Set of 400x300x450mm has field microscopes and other magnifying materials that are used to carry out microscopy in field studies and classrooms.                                                                                           | 1 | Pack |
| 10 | Dichotomous Key formation set<br>Dichotomous Key formation set measures 270x100x100mm and has items used to introduce learners to the concept of dichotomous keys.                                                                                                      | 1 | Pack |
| 11 | Amoeba simulator<br>Amoeba simulator is a 3-dimensional model packed in a 270x125x90mm box and shows the internal and external parts of an amoeba.                                                                                                                      | 1 | Set  |
| 12 | Paramecium Simulator<br>Paramecium Simulator is a 3-dimensional model packed in a 270x125x90mm box for visualizing the internal and external parts of a paramecium.                                                                                                     | 1 | Pack |
| 13 | Euglena Simulator<br>Euglena Simulator is a 3-dimensional model packed in a 270x125x90mm box showing the internal and external parts of an euglena.                                                                                                                     | 1 | Set  |
| 14 | Insect Study Pack<br>Insect Study Pack measures 300x180x180mm with cards and wooden models used to study insects.                                                                                                                                                       | 1 | Pack |
| 15 | Flowering Plant study pack<br>Flowering Plant study pack measures 300x180x180mm with two sets of 10 cards and wooden models used to study flowering parts.                                                                                                              | 1 | Pack |
| 16 | Soil Science study set<br>Soil Science study set measures 310x185x180mm with study materials and games used to study the soil aspects like soil profile, soil pH, and soil fertility among others.                                                                      | 1 | Pack |
| 17 | Nutrient Identification puzzle<br>Nutrient Identification puzzle is a 3d puzzle made up of 300x150x95mm wooden cards and printable laminated cards that introduce learners to nutrient identification and the basics of food tests and nutrition in plants and animals. | 1 | Pack |
| 18 | Digestive system simulator<br>Digestive system simulator measures 350x255x60mm and has the whole digestive system anatomy. It describes how digestion takes place in mammals.                                                                                           | 1 | Set  |
| 19 | Dental Formula arranger<br>Dental Formula arranger measures 350x255x60mm and has a half-modelled structure of the upper and lower jaw, with detachable types of teeth. It describes how teeth are arranged in different families of mammals.                            | 1 | Pack |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                                   |    |        |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----|--------|
| 20 | Working of Enzyme model<br>Working of Enzyme model is a model of a typical enzyme structure and is used for studying how enzymes work. It measures 300x250x105mm.                                                                 | 1  | System |
| 21 | 3-D Ileum and Absorption simulator<br>3-D Ileum and Absorption simulator measures 310x105x90mm and has whole ileum wall anatomy. It describes how absorption takes place on the villi.                                            | 1  | system |
| 22 | Nutrition in Plants study set<br>Nutrition in Plants study set measures 350x255x60mm and has a 3-model of the excretory system that shows how excretion occurs.                                                                   | 1  | System |
| 23 | Circulatory System Simulator<br>Circulatory System Simulator measures 350x255x60mm and has a system that shows how blood flows around the body. It describes how materials move around the body.                                  | 1  | Pack   |
| 24 | Human heart functioning Model<br>Human heart functioning Model measuring 350x255x60mm and has a system that shows how blood flows through the heart. It describes how the heart functions.                                        | 1  | Pack   |
| 25 | Lymphatic simulator<br>Lymphatic simulator measures 350x255x60mm and has system that shows how lymph flows around the body. It describes how lymphatic system works.                                                              | 1  | Pack   |
| 26 | Gaseous exchange Study Pack<br>Gaseous exchange Study Pack measures 350x255x60mm and has 3-D models of the complete respiratory systems for showing how the respiratory system works.                                             | 1  | Pack   |
| 27 | Aerobic and Anaerobic respiration Study pack (equation)<br>Aerobic and Anaerobic respiration Study pack is a 2d model packed in a 305x185x180mm box for respiration equations and puzzles.                                        | 1  | System |
| 28 | Excretory System Simulator<br>Excretory System Simulator is a 3d model packed in a 305x185x180mm box of an excretory system used to study how excretion takes place.                                                              | 1  | Set    |
| 29 | Nephron structure and Functioning simulator<br>Nephron structure and Functioning simulator measures 350x255x60mm and contains 3 D model of nephron structure used to study osmoregulation and how urine is formed in the kidneys. | 1  | System |
| 30 | Hormonal coordination study pack<br>Hormonal coordination study pack is a 2d model packed in a 305x185x180mm box for hormones and how they affect the functioning of the body.                                                    | 11 | Pack   |
| 31 | Brain Structure simulator<br>Brain Structure simulator is a 3D model of the brain packed in a 310x160x170mm box to show the parts and                                                                                             |    | Pack   |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                             |   |      |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
|    | functions of the brain.                                                                                                                                                                                                     |   |      |
| 32 | Reflex Arch Simulator<br>Reflex Arch Simulator is a package of materials packed in a 300x300x180mm box for learning coordination.                                                                                           | 1 | Pack |
| 33 | Nervous Coordination Pack<br>Nervous Coordination Pack is a 2d model packed in a 170x80x100mm box for studying the nervous system.                                                                                          | 1 | Pack |
| 34 | Eye functioning Simulator<br>Eye functioning Simulator measures 250x155x80mm and has a 3D model of the organ of the eye. It describes how animals are able to sense and detect light.                                       | 1 | Set  |
| 35 | Skin Organ simulator<br>Skin Organ simulator measures 350x255x60mm and has a 3D model of the organ of the skin. It describes how animals are able to sense.                                                                 | 1 | Set  |
| 36 | Nerve cells Pack<br>Nerve cells Pack is a package of 2d models packed in a 200x120x180mm box for studying types of nerve cells and their functions.                                                                         | 1 | Set  |
| 37 | Bone framework and Joint Study Pack<br>Bone framework and Joint Study Pack is a package of materials packed in a 500x250x145mm box for demonstrating lens properties and application of basic microscopy and magnification. | 1 | Set  |
| 38 | Primary and Secondary Growth study Pack<br>Primary and Secondary Growth study Pack measures 350x255x60mm and puzzles about primary and secondary growth. It describes how growth takes place in living things.              | 1 | Set  |
| 39 | Vegetative Propagation study Pack<br>Vegetative Propagation study Pack is a pack of materials in a 310x125x100mm box that shows how vegetative propagation takes place.                                                     | 1 | Pack |
| 40 | Reproductive systems Simulators<br>Reproductive systems Simulators measures 350x255x60mm measures and has a 3-model of the male and female systems. It describes how animals are able to reproduce.                         | 1 | Pack |
| 41 | Male and Female gamete simulator pack<br>Male and Female gamete simulators measures 350x255x60mm measures and has a 3-D model of the male and female gametes. It describes how mammalian gametes function.                  | 1 | Each |
| 42 | Fertilisation Process model<br>Fertilisation Process model is a 3d model of the cross-section of uterus, ovary and oviduct in a 310x125x100mm box that shows how fertilization and implantation takes place.                | 1 | Set  |

## Part 2: Section 6 Statement of Requirements

|                        |                                                                                                                                                                                                                         |   |      |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
| 43                     | Genetics Study Pack<br>Genetics Study Pack is a pack of materials in a 310x125x100mm box that shows how genetics takes place.                                                                                           | 1 | Set  |
| 44                     | Ecology Study Pack<br>Ecology Study Pack is a pack of materials in a 310x125x100mm box that shows how ecology takes place.                                                                                              | 1 | Pack |
| 45                     | Specimen collection set<br>Specimen collection set is a pack of materials in a 310x125x100mm box, it contains items used in specimen collection.                                                                        | 1 | Set  |
| 46                     | Metamorphosis Study puzzle<br>Metamorphosis Study puzzle is a pack of the two types of metamorphosis in a 310x125x100mm box.                                                                                            | 1 | Set  |
| <b>Physics Section</b> |                                                                                                                                                                                                                         |   |      |
| 1                      | Solar System arrangement and eclipse Study Pack<br>Solar System arrangement and eclipse Study pack contains items that demonstrate to learners the solar system and the nature of light arrangement.                    | 1 | Each |
| 2                      | Biology City Pack<br>Biology City is a 310x120x100mm and has a board and fixing cards that introduce learners to the knowledge of biology around us.                                                                    | 1 | Each |
| 3                      | Pinhole Camera<br>Pinhole Camera is a 310x300x180mm in size and contains other materials inside that can demonstrate how a camera works                                                                                 | 1 | Kit  |
| 4                      | Rectilinear Propagation of Light<br>Rectilinear Propagation of Light is a 3-D set model meant to bring out the movement of light both to our site and how we view things in daily life                                  | 1 | Each |
| 5                      | States of Matter Study Pack<br>States of Matter Study Pack is a set with over items seated on a board to demonstrate the arrangement in the 3 states of matter                                                          | 1 | Set  |
| 6                      | Surface Tension Study Set<br>Surface Tension Study Set is a set of puzzles with 310x300x180mm size pack and will guide learners to understand the malpractices in the Chemistry lab.                                    | 1 | Set  |
| 7                      | Capillarity Set<br>Capillarity Set contains pieces to restrict the flow of the fluid. It is for solving capillary flow problems.                                                                                        | 1 | Set  |
| 8                      | Electric Circuit Pack<br>Electric Circuit Model measures 20x20x5mm and has 2 sets one joined and another dismantled in different items. It teaches learners to understand simple wiring and connections in electricity. | 1 | Park |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                          |   |      |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
| 9  | Physics Careers Flow Diagram<br>Physics Careers Flow Diagram is in a 150x255x70mm pack. It brings out the different careers a learn can pursue if they take on physics.                                                  | 1 | Each |
| 10 | Physics Tree<br>Physics Tree contains 8 branches and each branch stretches out an important branch in physics and how useful it is in daily life                                                                         | 1 | Each |
| 11 | Thermo-measurements Set<br>Thermo-measurements Set has different items one can use to measure different temperatures and how such materials are used                                                                     | 1 | Set  |
| 12 | Heat Experimentation Set<br>Heat Experimentation Set has 9pieces and models that explain the modes of heat transfer as well as the expansivity of the different materials when exposed to heat                           | 1 | Set  |
| 13 | Simple machines Study Pack<br>Simple machines Study Pack has different machines that help us simplify our day to day work.                                                                                               | 1 | Park |
| 14 | Levers Pack<br>Levers Pack is for carrying out work or applying energy, we need to know which machine will do what kind of work in a simpler way. This pack contains the different levers we follow as we carry out work | 1 | Pack |
| 15 | Gears pack<br>Gears pack teaches learners how motor engines operate.                                                                                                                                                     | 1 | Park |
| 16 | Wheel and Axel Model<br>Wheel and Axel Model is meant to explain the working of wheel and axel and its application in daily life                                                                                         | 1 | Each |
| 17 | Centre of Gravity Study Pack<br>Centre of Gravity Study Pack contains puzzles and materials used to measure the centre of gravity                                                                                        | 1 | Park |
| 18 | Pressure Demonstration Set<br>Pressure Demonstration Set has 3 models in it to explain the atmospheric pressure and the different layers of the atmosphere                                                               | 1 | Set  |
| 19 | Atmospheric pressure Study set<br>Atmospheric pressure Study set contains 2 vessels used to study pressure                                                                                                               | 1 | Set  |
| 20 | Nature of materials Study Pack<br>Nature of materials Study Pack contains 10 materials which are used to demonstrate the different properties of matter and their structures                                             | 1 | Park |
| 21 | Magnetism Study Pack<br>Magnetism Study Pack has different materials to explain the magnetic field in materials and how magnets work                                                                                     | 1 | Park |
| 22 | Electrostatics Study pack<br>Electrostatics Study pack has 2models to demonstrate                                                                                                                                        | 1 | Park |

## Part 2: Section 6 Statement of Requirements

|                          |                                                                                                                                                                                                         |   |      |
|--------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
|                          | electrostatic forces how a gold leaf work                                                                                                                                                               |   |      |
| 23                       | Optics Demonstration set<br>Optics Demonstration set has 15 items to demonstrate how we are able to see light using the different materials                                                             | 1 | Set  |
| 24                       | Sound Study Pack<br>Sound Study Pack explains how we are able to receive sound from instruments through our ears                                                                                        | 1 | Pack |
| 25                       | Satellites and Communication simulators Pack<br>Satellites and Communication simulators Pack brings out an understanding of the different satellites and communications using different materials       | 1 | Pack |
| 26                       | Electromagnet Simulator<br>Electromagnet Simulator has items that are connected together to help learners how magnetic fields interact with electric fields                                             | 1 | Each |
| 27                       | Electric Bell simulator<br>Electric Bell simulator has 10 pieces on it that help learners to understand how an electromagnet works when power is allowed to go through a circuit.                       | 1 | Each |
| 28                       | Transformer Simulator<br>Transformer Simulator demonstrate how DC energy can be turned into AC energy that we can use to run our machines                                                               | 1 | Each |
| 29                       | Motor Simulator<br>Motor Simulator has 7 items which are used to come up with a functioning DC motor                                                                                                    | 1 | Each |
| 30                       | Telephone Receiver Simulator<br>Telephone Receiver Simulator is a 210x100x180mm in size and contains different items meant to demonstrate how you are able to receive calls from a person far from you. | 1 | Each |
| <b>Chemistry section</b> |                                                                                                                                                                                                         |   |      |
| 1                        | Branches of Science and Matching Game.<br><br>Branches of Science and Matching Game is a 310x300x180mm in size and contains 17 items meant to introduce Chemistry to learners.                          | 1 | Each |
| 2                        | Chemistry City Puzzle<br>Chemistry City Puzzle is a set of puzzles' pack measuring 210x100x950mm that introduces learners to Chemistry in daily life.                                                   | 1 | Pack |
| 3                        | Careers Magic Board.<br>Careers Magic Board is a 310x300x180mm by size and contains 3 magic boards that lets learners to discover careers and opportunities in Chemistry fields.                        | 1 | Each |
| 4                        | Rubbable Gridlocks pack.<br>Rubbable Gridlocks is a pack measuring 220x100x950mm and each set will facilitate learners                                                                                  | 1 | Pack |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                         |   |      |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
|    | about examples and chemicals of Chemistry.                                                                                                                                                              |   |      |
| 5  | Products Magic Card<br>Products Magic Cards are waterproof cards for game that guides learners to discover the products of Chemistry. It is 220x100x950mm in size.                                      | 1 | Each |
| 6  | Rules and Regulations Picture Puzzle.<br>Rules and Regulations Picture Puzzle is a set of puzzles with 310x300x180mm size pack and will guide learners to understand the malpractices in Chemistry lab. | 1 | Set  |
| 7  | Apparatus-Feature Matching Game.<br>Apparatus-Feature Matching Game in a pack measuring 310x300x180mm. It is for solving apparatus-related problems.                                                    | 1 | Pack |
| 8  | States Shade and Rub Gridlock.<br>States Shade and Rub Gridlock measures 220x100x950mm. It teaches learners to understand matter.                                                                       | 1 | Each |
| 9  | Components of air magic card.<br>Components of air magic card is a pack with magic cards measuring 310x300x180mm and are used for studying air components.                                              | 1 | Each |
| 10 | Components pie-chart magic card.<br>Components pie-chart magic card pack has pie-charts for teaching practically the percentage composition of air.                                                     | 1 | Each |
| 11 | Water-Cycle Jig-saw<br>Water-Cycle Jig-saw pack consists of jig-saws and measures 220x100x950mm for learning water cycle in the environment.                                                            | 1 | Each |
| 12 | Distillation pack.<br>This measures 150x255x70mm and contains materials for demonstrating distillation.                                                                                                 | 1 | Pack |
| 13 | Rocks' game.<br>Rocks' game is a pack of 150x255x70mm in size and is a mind-tricking game for learning all content about rocks and minerals.                                                            | 1 | Each |
| 14 | Acid-Alkali Pack.<br>Acid-Alkali Pack has items of 150x255x70mm in size for introducing to acids and alkalis.                                                                                           | 1 | Each |
| 15 | Acid-Alkali Properties Puzzle<br>Acid-Alkali Properties Puzzle measures 220x100x950mm and is for studying properties of acids and alkalis.                                                              | 1 | Each |
| 16 | Formula-Name element symbol gig-saw<br>Formula-Name element symbol gig-saw a jigsaw introducing learners to elements and their symbols. The pack measures in size.                                      | 1 | Each |
| 17 | Elements-Symbol Matching Puzzle.<br>Elements-Symbol Matching Puzzle is a 150x255x70mm pack and emphasizes learning on the elements and symbols.                                                         | 1 | Each |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                          |   |      |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---|------|
| 18 | Salt word equation Set<br>The set has equation building materials that trains essential skills of equation writing.                                                                                      | 1 | Set  |
| 19 | Symbol Equation Set<br>Symbol Equation Set has equation symbol building materials that trains essential skills of equation writing.                                                                      | 1 | Set  |
| 20 | Attachable and Fitting board (periodic table)<br>Attachable and Fitting board (periodic table) is a 310x300x180mm fit and match puzzle board that guides learners to understand periodic table.          | 1 | Each |
| 21 | 20 elements Symbol Cut-Outs<br>20 elements Symbol Cut-Outs has cut-out symbols of elements for mind-sorting. It is 310x300x180mm in size.                                                                | 1 | Each |
| 22 | States of Matter Symbols Pack<br>States of Matter Symbols Pack measures 310x300x180mm and guides learners on equation building.                                                                          | 1 | pack |
| 23 | Model of an atom<br>Model of an atom is a 310x300x180mm in size and has a models that demonstrates the structure and components of an atom.                                                              | 1 | Each |
| 24 | Model of diamond<br>Model of diamond is a 310x300x180mm in size and has a models that demonstrates the structure and components of diamond.                                                              | 1 | Each |
| 25 | Model of graphite<br>Model of graphite is a 310x300x180mm in size and has a models that demonstrates the structure and components of graphite.                                                           | 1 | Each |
| 26 | Reactivity Series Games Pack<br>Reactivity Series Games Pack helps learners to do and understand reactivity series. It is 150x255x70mm in size.                                                          | 1 | Pack |
| 27 | Periodic table Pack<br>Periodic table Pack has one set of periodic table and introduces learners to the concept of periodic table. it is 310x300x180mm by size.                                          | 1 | Pack |
| 28 | An electronic structure Model<br>An electronic structure Model shows the electronic structure of atoms in elements. It is 150x255x70mm in size.                                                          | 1 | Each |
| 29 | Giant structure Models Pack<br>Giant structure Models Pack is a set of 3 models that guides learners to assemble and build atomic structures.                                                            | 1 | Pack |
| 30 | Teacher's Instruction Manual<br>A teacher's instruction manual based on topics in the curriculum that guides a teacher on the use of each item in the kit including safety using use and proper storage. | 1 | Kit  |
| 31 | Packaging.<br><ul style="list-style-type: none"> <li>A 1370x500x500x500mm greyish Metallic</li> </ul>                                                                                                    |   |      |

### 2. Delivery and Completion Schedule

**Procurement Reference Number: MOES/SPLS/2022-23/.....**

The response time shall commence from the date of each call-off order. The Provider shall meet the response times for any call-off order, subject to the limitations in the contract.

Call-off orders may be issued at any time during a period of: \_\_\_\_\_.

| Item number | Brief Description of Supplies or Services | Response Time (days/wks/mths) | Delivery Point/ Site |
|-------------|-------------------------------------------|-------------------------------|----------------------|
| 1           | Secondary kits- LOT ..                    |                               |                      |

## Part 2: Section 6 Statement of Requirements

### 3. Terms of Reference and Technical Specifications

**Procurement Reference Number: MOES/SPLS/2022-2023/.....**

*Column b states the minimum terms of reference and technical specifications of the item(s) required by the Procuring and Disposing Entity.*

*The Bidder is to complete column c with the terms of reference and technical specification of the item(s) offered and to state “comply” or “not comply” and give details of the areas of non-compliance.*

**Supplies –**

| Item No.               | Terms of Reference and Technical Specifications required including applicable standards                                                                                       | Compliance of Terms of Reference and specifications offered |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------|
| <i>a</i>               | <i>B</i>                                                                                                                                                                      | <i>C</i>                                                    |
| No.                    |                                                                                                                                                                               |                                                             |
| <b>Biology section</b> |                                                                                                                                                                               |                                                             |
| 1                      | Biology City Pack<br>Biology City is a 310x120x100mm and has a board and fixing cards that introduce learners to the knowledge of biology around us.                          |                                                             |
| 2                      | Biology Tree Pack<br>Biology Tree is a 250x120x100mm and has a board and simulated tree structure showing branches of Biology and their interpretation.                       |                                                             |
| 3                      | Biology Application Puzzle<br>Biology Application Puzzle is a 260x120x100mm and has a board puzzle that introduces learners to the knowledge of Biology applied around us.    |                                                             |
| 4                      | Classification set<br>Classification set is a 300x150x95mm pack containing 5 learning cards and 5 wooden chips used to introduce learners to the aspects of classification.   |                                                             |
| 5                      | Animal cell simulator<br>Animal cell simulator is a 3-dimensional model packed in a 280x120x90mm box that shows visualizes the internal and external parts of an animal cell. |                                                             |
| 6                      | Plant Cell simulator<br>Plant Cell simulator is a 3-dimensional model packed in a 270x125x90mm box that visualizes the internal and external parts of a plant cell.           |                                                             |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                  |  |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 7  | Organism Organisation Puzzle<br>Organism Organisation Puzzle is a 3d puzzle made up of 300x150x95mm wooden cards that introduces learners to levels of organism organization and examples in plants and animals. |  |
| 8  | Bacterium Cell simulator<br>Bacterium Cell simulator is a 3-dimensional model packed in a 270x125x90mm box that visualizes the internal and external parts of a bacterium cell.                                  |  |
| 9  | Microscopy Set<br>Microscopy Set of 400x300x450mm has field microscopes and other magnifying materials that are used to carry out microscopy in field studies and classrooms.                                    |  |
| 10 | Dichotomous Key formation set<br>Dichotomous Key formation set measures 270x100x100mm and has items used to introduce learners to the concept of dichotomous keys.                                               |  |
| 11 | Amoeba simulator<br>Amoeba simulator is a 3-dimensional model packed in a 270x125x90mm box and shows the internal and external parts of an amoeba.                                                               |  |
| 12 | Paramecium Simulator<br>Paramecium Simulator is a 3-dimensional model packed in a 270x125x90mm box for visualizing the internal and external parts of a paramecium.                                              |  |
| 13 | Euglena Simulator<br>Euglena Simulator is a 3-dimensional model packed in a 270x125x90mm box showing the internal and external parts of an euglena.                                                              |  |
| 14 | Insect Study Pack<br>Insect Study Pack measures 300x180x180mm with cards and wooden models used to study insects.                                                                                                |  |
| 15 | Flowering Plant study pack<br>Flowering Plant study pack measures 300x180x180mm with two sets of 10 cards and wooden models used to study flowering parts.                                                       |  |
| 16 | Soil Science study set<br>Soil Science study set measures 310x185x180mm with study materials and games used to study the soil aspects like soil profile, soil pH, and soil fertility among                       |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                                                                         |  |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | others.                                                                                                                                                                                                                                                                 |  |
| 17 | Nutrient Identification puzzle<br>Nutrient Identification puzzle is a 3d puzzle made up of 300x150x95mm wooden cards and printable laminated cards that introduce learners to nutrient identification and the basics of food tests and nutrition in plants and animals. |  |
| 18 | Digestive system simulator<br>Digestive system simulator measures 350x255x60mm and has the whole digestive system anatomy. It describes how digestion takes place in mammals.                                                                                           |  |
| 19 | Dental Formula arranger<br>Dental Formula arranger measures 350x255x60mm and has a half-modelled structure of the upper and lower jaw, with detachable types of teeth. It describes how teeth are arranged in different families of mammals.                            |  |
| 20 | Working of Enzyme model<br>Working of Enzyme model is a model of a typical enzyme structure and is used for studying how enzymes work. It measures 300x250x105mm.                                                                                                       |  |
| 21 | 3-D Ileum and Absorption simulator<br>3-D Ileum and Absorption simulator measures 310x105x90mm and has whole ileum wall anatomy. It describes how absorption takes place on the villi.                                                                                  |  |
| 22 | Nutrition in Plants study set<br>Nutrition in Plants study set measures 350x255x60mm and has a 3-model of the excretory system that shows how excretion occurs.                                                                                                         |  |
| 23 | Circulatory System Simulator<br>Circulatory System Simulator measures 350x255x60mm and has a system that shows how blood flows around the body. It describes how materials move around the body.                                                                        |  |
| 24 | Human heart functioning Model<br>Human heart functioning Model measuring 350x255x60mm and has a system that shows how blood flows through the heart. It describes how the heart functions.                                                                              |  |
| 25 | Lymphatic simulator<br>Lymphatic simulator measures 350x255x60mm and has system that shows                                                                                                                                                                              |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                                   |  |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | how lymph flows around the body. It describes how lymphatic system works.                                                                                                                                                         |  |
| 26 | Gaseous exchange Study Pack<br>Gaseous exchange Study Pack measures 350x255x60mm and has 3-D models of the complete respiratory systems for showing how the respiratory system works.                                             |  |
| 27 | Aerobic and Anaerobic respiration Study pack (equation)<br>Aerobic and Anaerobic respiration Study pack is a 2d model packed in a 305x185x180mm box for respiration equations and puzzles.                                        |  |
| 28 | Excretory System Simulator<br>Excretory System Simulator is a 3d model packed in a 305x185x180mm box of an excretory system used to study how excretion takes place.                                                              |  |
| 29 | Nephron structure and Functioning simulator<br>Nephron structure and Functioning simulator measures 350x255x60mm and contains 3 D model of nephron structure used to study osmoregulation and how urine is formed in the kidneys. |  |
| 30 | Hormonal coordination study pack<br>Hormonal coordination study pack is a 2d model packed in a 305x185x180mm box for hormones and how they affect the functioning of the body.                                                    |  |
| 31 | Brain Structure simulator<br>Brain Structure simulator is a 3D model of the brain packed in a 310x160x170mm box to show the parts and functions of the brain.                                                                     |  |
| 32 | Reflex Arch Simulator<br>Reflex Arch Simulator is a package of materials packed in a 300x300x180mm box for learning coordination.                                                                                                 |  |
| 33 | Nervous Coordination Pack<br>Nervous Coordination Pack is a 2d model packed in a 170x80x100mm box for studying the nervous system.                                                                                                |  |
| 34 | Eye functioning Simulator<br>Eye functioning Simulator measures 250x155x80mm and has a 3D model of the organ of the eye. It describes how animals are able to sense and detect light.                                             |  |
| 35 | Skin Organ simulator<br>Skin Organ simulator measures                                                                                                                                                                             |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                             |  |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | 350x255x60mm and has a 3D model of the organ of the skin. It describes how animals are able to sense.                                                                                                                       |  |
| 36 | Nerve cells Pack<br>Nerve cells Pack is a package of 2d models packed in a 200x120x180mm box for studying types of nerve cells and their functions.                                                                         |  |
| 37 | Bone framework and Joint Study Pack<br>Bone framework and Joint Study Pack is a package of materials packed in a 500x250x145mm box for demonstrating lens properties and application of basic microscopy and magnification. |  |
| 38 | Primary and Secondary Growth study Pack<br>Primary and Secondary Growth study Pack measures 350x255x60mm and puzzles about primary and secondary growth. It describes how growth takes place in living things.              |  |
| 39 | Vegetative Propagation study Pack<br>Vegetative Propagation study Pack is a pack of materials in a 310x125x100mm box that shows how vegetative propagation takes place.                                                     |  |
| 40 | Reproductive systems Simulators<br>Reproductive systems Simulators measures 350x255x60mm measures and has a 3-model of the male and female systems. It describes how animals are able to reproduce.                         |  |
| 41 | Male and Female gamete simulator pack<br>Male and Female gamete simulators measures 350x255x60mm measures and has a 3-D model of the male and female gametes. It describes how mammalian gametes function.                  |  |
| 42 | Fertilisation Process model<br>Fertilisation Process model is a 3d model of the cross-section of uterus, ovary and oviduct in a 310x125x100mm box that shows how fertilization and implantation takes place.                |  |
| 43 | Genetics Study Pack<br>Genetics Study Pack is a pack of materials in a 310x125x100mm box that shows how genetics takes place.                                                                                               |  |
| 44 | Ecology Study Pack<br>Ecology Study Pack is a pack of materials in a 310x125x100mm box that shows how                                                                                                                       |  |

## Part 2: Section 6 Statement of Requirements

|                        |                                                                                                                                                                                                      |  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|                        | ecology takes place.                                                                                                                                                                                 |  |
| 45                     | Specimen collection set<br>Specimen collection set is a pack of materials in a 310x125x100mm box, it contains items used in specimen collection.                                                     |  |
| 46                     | Metamorphosis Study puzzle<br>Metamorphosis Study puzzle is a pack of the two types of metamorphosis in a 310x125x100mm box.                                                                         |  |
| <b>Physics Section</b> |                                                                                                                                                                                                      |  |
| 1                      | Solar System arrangement and eclipse Study Pack<br>Solar System arrangement and eclipse Study pack contains items that demonstrate to learners the solar system and the nature of light arrangement. |  |
| 2                      | Biology City Pack<br>Biology City is a 310x120x100mm and has a board and fixing cards that introduce learners to the knowledge of biology around us.                                                 |  |
| 3                      | Pinhole Camera<br>Pinhole Camera is a 310x300x180mm in size and contains other materials inside that can demonstrate how a camera works                                                              |  |
| 4                      | Rectilinear Propagation of Light<br>Rectilinear Propagation of Light is a 3-D set model meant to bring out the movement of light both to our site and how we view things in daily life               |  |
| 5                      | States of Matter Study Pack<br>States of Matter Study Pack is a set with over items seated on a board to demonstrate the arrangement in the 3 states of matter                                       |  |
| 6                      | Surface Tension Study Set<br>Surface Tension Study Set is a set of puzzles with 310x300x180mm size pack and will guide learners to understand the malpractices in the Chemistry lab.                 |  |
| 7                      | Capillarity Set<br>Capillarity Set contains pieces to restrict the flow of the fluid. It is for solving capillary flow problems.                                                                     |  |
| 8                      | Electric Circuit Pack<br>Electric Circuit Model measures 20x20x5mm and has 2 sets one joined and another dismantled in different items. It teaches learners to understand simple wiring              |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                                          |  |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | and connections in electricity.                                                                                                                                                                                          |  |
| 9  | Physics Careers Flow Diagram<br>Physics Careers Flow Diagram is in a 150x255x70mm pack. It brings out the different careers a learn can pursue if they take on physics.                                                  |  |
| 10 | Physics Tree<br>Physics Tree contains 8 branches and each branch stretches out an important branch in physics and how useful it is in daily life                                                                         |  |
| 11 | Thermo-measurements Set<br>Thermo-measurements Set has different items one can use to measure different temperatures and how such materials are used                                                                     |  |
| 12 | Heat Experimentation Set<br>Heat Experimentation Set has 9pieces and models that explain the modes of heat transfer as well as the expansivity of the different materials when exposed to heat                           |  |
| 13 | Simple machines Study Pack<br>Simple machines Study Pack has different machines that help us simplify our day to day work.                                                                                               |  |
| 14 | Levers Pack<br>Levers Pack is for carrying out work or applying energy, we need to know which machine will do what kind of work in a simpler way. This pack contains the different levers we follow as we carry out work |  |
| 15 | Gears pack<br>Gears pack teaches learners how motor engines operate.                                                                                                                                                     |  |
| 16 | Wheel and Axel Model<br>Wheel and Axel Model is meant to explain the working of wheel and axel and its application in daily life                                                                                         |  |
| 17 | Centre of Gravity Study Pack<br>Centre of Gravity Study Pack contains puzzles and materials used to measure the centre of gravity                                                                                        |  |
| 18 | Pressure Demonstration Set<br>Pressure Demonstration Set has 3 models in it to explain the atmospheric pressure and the different layers of the atmosphere                                                               |  |
| 19 | Atmospheric pressure Study set<br>Atmospheric pressure Study set contains 2 vessels used to study pressure                                                                                                               |  |

## Part 2: Section 6 Statement of Requirements

---

|    |                                                                                                                                                                                                         |  |
|----|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 20 | Nature of materials Study Pack<br>Nature of materials Study Pack contains 10 materials which are used to demonstrate the different properties of matter and their structures                            |  |
| 21 | Magnetism Study Pack<br>Magnetism Study Pack has different materials to explain the magnetic field in materials and how magnets work                                                                    |  |
| 22 | Electrostatics Study pack<br>Electrostatics Study pack has 2models to demonstrate electrostatic forces how a gold leaf work                                                                             |  |
| 23 | Optics Demonstration set<br>Optics Demonstration set has 15 items to demonstrate how we are able to see light using the different materials                                                             |  |
| 24 | Sound Study Pack<br>Sound Study Pack explains how we are able to receive sound from instruments through our ears                                                                                        |  |
| 25 | Satellites and Communication simulators Pack<br>Satellites and Communication simulators Pack brings out an understanding of the different satellites and communications using different materials       |  |
| 26 | Electromagnet Simulator<br>Electromagnet Simulator has items that are connected together to help learners how magnetic fields interact with electric fields                                             |  |
| 27 | Electric Bell simulator<br>Electric Bell simulator has 10 pieces on it that help learners to understand how an electromagnet works when power is allowed to go through a circuit.                       |  |
| 28 | Transformer Simulator<br>Transformer Simulator demonstrate how DC energy can be turned into AC energy that we can use to run our machines                                                               |  |
| 29 | Motor Simulator<br>Motor Simulator has 7items which are used to come up with a functioning DC motor                                                                                                     |  |
| 30 | Telephone Receiver Simulator<br>Telephone Receiver Simulator is a 210x100x180mm in size and contains different items meant to demonstrate how you are able to receive calls from a person far from you. |  |

## Part 2: Section 6 Statement of Requirements

| Chemistry section |                                                                                                                                                                                                         |  |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 1                 | Branches of Science and Matching Game.<br><br>Branches of Science and Matching Game is a 310x300x180mm in size and contains 17 items meant to introduce Chemistry to learners.                          |  |
| 2                 | Chemistry City Puzzle<br>Chemistry City Puzzle is a set of puzzles' pack measuring 210x100x950mm that introduces learners to Chemistry in daily life.                                                   |  |
| 3                 | Careers Magic Board.<br>Careers Magic Board is a 310x300x180mm by size and contains 3 magic boards that lets learners to discover careers and opportunities in Chemistry fields.                        |  |
| 4                 | Rubbable Gridlocks pack.<br>Rubbable Gridlocks is a pack measuring 220x100x950mm and each set will facilitate learners about examples and chemicals of Chemistry.                                       |  |
| 5                 | Products Magic Card<br>Products Magic Cards are waterproof cards for game that guides learners to discover the products of Chemistry. It is 220x100x950mm in size.                                      |  |
| 6                 | Rules and Regulations Picture Puzzle.<br>Rules and Regulations Picture Puzzle is a set of puzzles with 310x300x180mm size pack and will guide learners to understand the malpractices in Chemistry lab. |  |
| 7                 | Apparatus-Feature Matching Game.<br>Apparatus-Feature Matching Game in a pack measuring 310x300x180mm. It is for solving apparatus-related problems.                                                    |  |
| 8                 | States Shade and Rub Gridlock.<br>States Shade and Rub Gridlock measures 220x100x950mm. It teaches learners to understand matter.                                                                       |  |
| 9                 | Components of air magic card.<br>Components of air magic card is a pack with magic cards measuring 310x300x180mm and are used for studying air components.                                              |  |
| 10                | Components pie-chart magic card.<br>Components pie-chart magic card pack has pie-charts for teaching practically the percentage composition of air.                                                     |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                 |  |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
| 11 | Water-Cycle Jig-saw<br>Water-Cycle Jig-saw pack consists of jig-saws and measures 220x100x950mm for learning water cycle in the environment.                                                    |  |
| 12 | Distillation pack.<br>This measures 150x255x70mm and contains materials for demonstrating distillation.                                                                                         |  |
| 13 | Rocks' game.<br>Rocks' game is a pack of 150x255x70mm in size and is a mind-tricking game for learning all content about rocks and minerals.                                                    |  |
| 14 | Acid-Alkali Pack.<br>Acid-Alkali Pack has items of 150x255x70mm in size for introducing to acids and alkalis.                                                                                   |  |
| 15 | Acid-Alkali Properties Puzzle<br>Acid-Alkali Properties Puzzle measures 220x100x950mm and is for studying properties of acids and alkalis.                                                      |  |
| 16 | Formula-Name element symbol gig-saw<br>Formula-Name element symbol gig-saw a jigsaw introducing learners to elements and their symbols. The pack measures in size.                              |  |
| 17 | Elements-Symbol Matching Puzzle.<br>Elements-Symbol Matching Puzzle is a 150x255x70mm pack and emphasizes learning on the elements and symbols.                                                 |  |
| 18 | Salt word equation Set<br>The set has equation building materials that trains essential skills of equation writing.                                                                             |  |
| 19 | Symbol Equation Set<br>Symbol Equation Set has equation symbol building materials that trains essential skills of equation writing.                                                             |  |
| 20 | Attachable and Fitting board (periodic table)<br>Attachable and Fitting board (periodic table) is a 310x300x180mm fit and match puzzle board that guides learners to understand periodic table. |  |
| 21 | 20 elements Symbol Cut-Outs<br>20 elements Symbol Cut-Outs has cut-out symbols of elements for mind-sorting. It is 310x300x180mm in size.                                                       |  |
| 22 | States of Matter Symbols Pack<br>States of Matter Symbols Pack measures 310x300x180mm and guides learners on equation building.                                                                 |  |
| 23 | Model of an atom                                                                                                                                                                                |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                          |  |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | Model of an atom is a 310x300x180mm in size and has a models that demonstrates the structure and components of an atom.                                                                                  |  |
| 24 | Model of diamond<br>Model of diamond is a 310x300x180mm in size and has a models that demonstrates the structure and components of diamond.                                                              |  |
| 25 | Model of graphite<br>Model of graphite is a 310x300x180mm in size and has a models that demonstrates the structure and components of graphite.                                                           |  |
| 26 | Reactivity Series Games Pack<br>Reactivity Series Games Pack helps learners to do and understand reactivity series. It is 150x255x70mm in size.                                                          |  |
| 27 | Periodic table Pack<br>Periodic table Pack has one set of periodic table and introduces learners to the concept of periodic table. it is 310x300x180mm by size.                                          |  |
| 28 | An electronic structure Model<br>An electronic structure Model shows the electronic structure of atoms in elements. It is 150x255x70mm in size.                                                          |  |
| 29 | Giant structure Models Pack<br>Giant structure Models Pack is a set of 3 models that guides learners to assemble and build atomic structures.                                                            |  |
| 30 | Teacher's Instruction Manual<br>A teacher's instruction manual based on topics in the curriculum that guides a teacher on the use of each item in the kit including safety using use and proper storage. |  |
| 31 | Packaging.<br><ul style="list-style-type: none"> <li>• A 1370x500x500x500mm greyish Metallic lockable Cabin</li> <li>• Packaging boxes per item</li> </ul> Labelling per item                            |  |
| 23 | Model of an atom<br>Model of an atom is a 310x300x180mm in size and has a models that demonstrates the structure and components of an atom.                                                              |  |
| 24 | Model of diamond<br>Model of diamond is a 310x300x180mm in size and has a models that demonstrates the structure and components of diamond.                                                              |  |
| 25 | Model of graphite<br>Model of graphite is a 310x300x180mm in                                                                                                                                             |  |

## Part 2: Section 6 Statement of Requirements

|    |                                                                                                                                                                                                          |  |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|
|    | size and has a models that demonstrates the structure and components of graphite.                                                                                                                        |  |
| 26 | Reactivity Series Games Pack<br>Reactivity Series Games Pack helps learners to do and understand reactivity series. It is 150x255x70mm in size.                                                          |  |
| 27 | Periodic table Pack<br>Periodic table Pack has one set of periodic table and introduces learners to the concept of periodic table. it is 310x300x180mm by size.                                          |  |
| 28 | An electronic structure Model<br>An electronic structure Model shows the electronic structure of atoms in elements. It is 150x255x70mm in size.                                                          |  |
| 29 | Giant structure Models Pack<br>Giant structure Models Pack is a set of 3 models that guides learners to assemble and build atomic structures.                                                            |  |
| 30 | Teacher's Instruction Manual<br>A teacher's instruction manual based on topics in the curriculum that guides a teacher on the use of each item in the kit including safety using use and proper storage. |  |
| 31 | Packaging. <ul style="list-style-type: none"><li>• A 1370x500x500x500mm greyish Metallic lockable Cabin</li><li>• Packaging boxes per item</li><li>• Labelling per item</li></ul>                        |  |

The Prices should be valid for at least 2 Years

The detailed technical evaluation will examine the terms of reference and technical specification of the items offered in column c and determine whether this meets the minimum specifications or terms of reference in column b. Bidders must complete column c or the bid will be rejected.

**For supplies, bidders are required to include technical literature to support the details provided in column c.**

## Part 3: Section 8. Special Conditions of Contract

### Section 8. Special Conditions of Contract

The following Special Conditions of Contract (SCC) shall supplement the General Conditions of Contract (GCC). Whenever there is a conflict, the provisions herein shall prevail over those in the GCC.

| GCC clause reference | Special Conditions                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

#### Agreement For a Framework Contract

**Procurement Reference No:**

THIS AGREEMENT made the \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_, between \_\_\_\_\_ of \_\_\_\_\_ (hereinafter “the Procuring and Disposing Entity”), of the one part, and \_\_\_\_\_ of \_\_\_\_\_ (hereinafter “the Provider”), of the other part:

WHEREAS the Procuring and Disposing Entity invited bids for certain Supplies and Related \_\_\_\_\_ Services, \_\_\_\_\_ viz., \_\_\_\_\_ and has accepted a Bid by the Provider for the provision of those Supplies and Related Services in the sum of \_\_\_\_\_ (hereinafter “the Contract Price”).

NOW THIS AGREEMENT WITNESSETH AS FOLLOWS:

1. In this Agreement words and expressions shall have the same meanings as are respectively assigned to them in the Contract referred to.
2. In consideration of the payments to be made by the Procuring and Disposing Entity to the Provider as indicated in this Agreement, the Provider hereby covenants with the Procuring and Disposing Entity to provide the Supplies and Related Services and to remedy defects therein in conformity in all respects with the provisions of the Contract.
3. The Procuring and Disposing Entity hereby covenants to pay the Provider in consideration of the provision of the Supplies and Related Services and the remedying of defects therein, the Contract Price or such other sum as may become payable under the provisions of the Contract at the times and in the manner prescribed by the Contract.
4. The quantities of Supplies specified in the Statement of Requirements are estimated quantities only and are not purchased by this contract. If the call-off orders under this contract do not result in total orders of the quantities described as estimates, that fact shall not constitute the basis for an equitable adjustment.
5. The Procuring and Disposing Entity shall order from the Provider all the Supplies specified in the contract that are required to be purchased by the Procuring and Disposing Entity during the period stated below, unless any Supplies are urgently required in an emergency situation and the Provider is unable to deliver such Supplies within the period required by the Procuring and Disposing Entity.
6. The Procuring and Disposing Entity guarantees to order at least the value of Supplies specified as the minimum value in the Statement of Requirements.
7. Any Supplies to be provided under this contract shall be ordered by the issue of call-off orders, which shall be issued by the Procuring and Disposing Entity as Notices in

---

accordance with GCC Clause 8, using the format attached to this Agreement. The authorised signatory for call-off orders shall be the official named in SCC Clause 8.

8. Call-off orders may be issued at any time during a period of one year from the date of contract indicated above. Any call-off order issued, but not completed, during this period, shall be governed by the Contract in the same way as if it had been completed during that period.
9. Call-off orders are subject to the following limitations and exceptions:
  - (a) where the value of a call-off order is less than 2½% of the contract price, the Provider is not obliged to provide the Supplies, provided that the Provider gives the Procuring and Disposing Entity a notice, within three working days of the date of the call-off order, stating its intention not to provide the Supplies;
  - (b) where the value of a call-off order, or the total value of all call-off orders within a period of one month, is more than 25% of the contract price, the Provider shall not be bound by the response times specified in the Statement of Requirements, provided that the Provider gives the Procuring and Disposing Entity a notice, within three working days of the date of the call-off order, stating its inability to deliver the Supplies within the response time and specifying the delivery period which will apply.

IN WITNESS whereof the parties hereto have caused this Agreement to be executed in accordance with the law specified in the Special Conditions of Contract on the day, month and year indicated above.

### Call-Off Order Under a Framework Contract

**Procurement Reference No:** \_\_\_\_\_  
**Call-Off Order Reference No:** \_\_\_\_\_  
**Procuring and Disposing Entity:** \_\_\_\_\_  
**Provider:** \_\_\_\_\_  
**Date of Call-Off Order:** \_\_\_\_\_

The Procuring and Disposing Entity indicated above issues this call-off order under the framework contract referenced above.

This call-off order is subject to the terms and conditions of the framework contract referenced above. In the event of a conflict, between this call-off order and the contract, the contract shall prevail.

Please proceed with delivery of the Supplies detailed on the attached List of Supplies and Price Schedule, in accordance with the response times specified in the contract.

The total value of this call-off order is \_\_\_\_\_.

Please confirm your receipt of this call-off order and that you are proceeding with delivery of the Supplies, in accordance with the terms and conditions of the contract.
